

MUHAMMAD UMAIR AHMED

Product Manager (Technical & UX) • Fintech & Payments • Analytical & Entrepreneurial

Jhelum, Pakistan • Open to relocate • +92 310 5876228 • umairahmed1317@gmail.com

PORTFOLIO LINK

PROFESSIONAL SUMMARY

Analytical and entrepreneurial Product Manager with experience of delivering end-to-end fintech and SaaS products across payments, EMI, and digital banking. Launched Tap-to-Pay (NFC) and EMI Business Account - scalable solutions that generated £30K revenue within the first month. Passionate about turning complex problems into simple, scalable solutions by collaborating with Design, Engineering, and Operations to build features customers love. Proven track record in data-informed product decisions, user testing, roadmap strategy, and cross-functional stakeholder management in fast-paced Agile environments.

PROFESSIONAL EXPERIENCE

Product Officer • ACE Union – Manchester, UK

2025 – Present

- **Owned end-to-end product strategy, roadmap, innovation, feature planning and smooth implementation** for EMI Business Account — a scalable fintech solution delivering Faster Payments, Dynamic QR, Direct Debits, Contactless Payments, and Cross-Border Transfers, shipped on schedule
- **Spearheaded Tap-to-Pay (NFC) product launch** enabling merchants to accept contactless transactions; designed pricing strategy generating £30K revenue within the first month
- **Gathered and analysed user feedback, market insights, and competitor data** to inform product roadmap priorities and identify scalable solution opportunities
- **Authored clear product requirements - BRDs, PRDs, and user stories** - with precise acceptance criteria, reducing development rework and improving sprint clarity across engineering teams
- **Collaborated with Design, Engineering, Compliance, and Operations** to deliver initiatives from concept to launch, managing external partner integrations end-to-end
- **Conducted user testing and iterated on features based on results**, tracking progress and presenting outcomes to global stakeholders across teams
- **Drove data-informed product decisions** by analysing customer behaviour, funnel performance, and retention data, improving ARPU, reducing churn, and optimising CAC efficiency
- **Received regular structured feedback** to accelerate development and improve cross-functional collaboration within Agile squads

Project Coordinator • Goflare – Jhelum, PK

2023 – 2024

- **Supported senior stakeholders with product strategy, project planning, coordination, and execution** across multiple concurrent initiatives, ensuring alignment with business objectives and delivery timelines.
- **Coordinated cross-functional teams** across technical and business units, improving project delivery timelines and ensuring on-time execution through effective planning and progress tracking.
- **Gathered and analysed project data**, stakeholder feedback, and operational metrics to support decision-making and identify process improvement opportunities.
- **Documented project requirements**, maintained project records, and **tracked implementation progress**, facilitating communication between technical and non-technical stakeholders.
- **Identified delivery risks and implemented mitigation plans**, keeping initiatives on roadmap schedule and reducing project delays
- **Prepared structured project status updates** and presented progress reports to stakeholders,

improving project visibility and supporting informed decision-making.

- **Developed and maintained frontend web applications**, building a strong foundation in responsive design, user interface development, and modern web technologies
- **Collaborated with product and design teams** to implement UI features, translating wireframes and design mockups into functional, responsive, and user-friendly interfaces.
- **Conducted frontend testing, debugging, and performance optimization**, supporting release cycles and contributing to a seamless user experience across web applications.

EDUCATION

Bachelor of Science in Software Engineering

2021 – 2025

University of Gujrat • GPA: 3.39 / 4.0 (First-Class Equivalent, Pakistani grading scale)

FSC pre-engineering

2019 – 2021

Govt Post Graduate College Jhelum

SKILLS

Product Ownership: Product strategy & road mapping, backlog management, feature prioritisation, MVP definition, discovery & delivery, OKRs / KPIs, product lifecycle management, scalable solution design, go-to-market execution

User Research & UX: User testing, user feedback analysis, customer behaviour analysis, funnel & retention analysis, market research, competitor benchmarking, customer experience optimisation

Cross-functional Collaboration: Agile/Scrum, sprint planning, stakeholder management, Design • Engineering

• Operations alignment, good communication skills, product requirements (BRDs/PRDs/user stories), concept-to-launch delivery

Data & Analytics: Data-informed decision making, ARPU & CAC optimisation, churn reduction, KPI definition, performance tracking, market insights analysis

Technical: System architecture, web technologies (frontend), APIs, A/B testing, UAT & QA, release management, Jira, Trello, Figma, Postman, Miro, Microsoft Office

Languages: English (fluent) • Urdu (native) • Punjabi (native)

CERTIFICATIONS & PROFESSIONAL TRAINING

- Anti-Money Laundering & Counter Terrorist Financing (AML/CFT)
- Financial Crime Prevention & Fraud Detection
- APP Fraud Reimbursement
- Fraud Prevention (Global)
- Sanctions Compliance
- General Data Protection Regulation (GDPR)
- Information Security & Cyber Risk Awareness
- Creative Designing Certification
- Agile & Project Management Workshops / Seminars
- Software Testing & Quality Assurance Training
